

Chess4Kidz

Register your child(ren) today for the next session of *Chess4Kidz*.

Students develop mental concentration, self discipline, and patience, and simultaneously have lots of fun battling each other on the chessboard.

Chess4Kidz Program Description

Each one hour *Chess4Kidz* class by Master Chess Coach Mr. Doktorski consists of a 20-minute lesson followed by actual battles on the chessboard between students. Mental discipline and good sportsmanship are encouraged. Skills taught range from basic checkmates to rudimentary tactics and strategies such as pins, forks, skewer attacks, opening traps, opening theory, pawn structure, etc. Students examine memorable and instructive games of famous grandmasters. During tournament games students are paired against opponents of similar strength. During the Final Awards Ceremony all students receive a Certificate of Achievement and the winners (usually the top four, depending on the size of the class) of the tournament receive trophies. All chess supplies are provided. New students **MUST** already understand how the pieces move. Ages 6-14.

Benefits that this program will provide to its participants:

- 1) helps develop mental concentration & self-discipline
- 2) encourages students to think before acting, to examine the consequences of one's actions
- 3) teaches good sportsmanship
