

What is Level Up Virtual Academy Learning Period?

Level Up Virtual Academy is an **annual program** that runs during the first learning period (5 weeks) of our year-round calendar. It is designed for high school students to enroll in **ten credits of A-G, NCAA-approved coursework** they did not successfully complete during the traditional school year or to get ahead of schedule for the next school year.

Incoming 9th graders are welcome to join us to get a headstart on their high school career, as are high school students who want to extend their learning into the summer, earn certifications through our high-interest **Career Technical Education (CTE) courses**, or explore an area of passion.

Offerings

- **A-G, NCAA-approved core and elective course options**
- Weekly virtual live sessions with specialized, credentialed content teachers
- **Daily virtual study halls for ongoing academic support**
- Access to academic and emotional counseling resources as needed
- **Virtual enrichment opportunities**
- Mailed enrichment boxes to extend student learning

Course Highlights

Students enrolled in our Level Up Virtual Academy learning period as part of our extended year-round calendar have the opportunity to retake a course in the core areas of English, math, science, world languages, and history to meet A-G and high school graduation requirements.

To help students regain lost credit, develop written competencies, and build academic confidence, we offer a diverging path of English 9 course options where students can select their thematic focus along the way, choosing their own adventure.

Students can choose to take high-demand courses like Health and VAPA electives to offer more flexibility in their schedule during the traditional school year and even have access to our robust offerings of CTE pathway introductory courses that allow them to explore the fields of education, marketing, medicine, outdoor recreation, and music!
